

North Sound BH-ASO Technical call

2020-06-12

1. XE Modifier update
 - a. See email, from the HCA, below these minutes
 - b. Continue to send the XE modifier on any service that appears to be a duplicate. Same Client, CPT, Date, Clinician NPI. Services that we have sent on to the MCOs/HCA, that are in a rejected status, will be reprocessed. We do have 2 years to correct services in a rejected status. In summary, keep doing what you have been doing.
2. Address Format for July vs October
 - a. The Address transaction is being implemented for July 1st submission – 022.03 will be the transaction number. The format is attached. The first 6 fields are the same for all of the transactions.
 - b. Also applies to the Authorization 980.00. The format is attached.
 - c. The delimiter is still the pipe. In October the delimiter will be TAB.
3. 980.00 ASAM date
 - a. The field for the Score date applies to the ASAM or (CA)Locus. ASAM for SUD and the Locus for MH. The date would be when the score was assessed for the client.
4. Walk through the data required for an ASO client as of today.
 - a. Brief overview: Demographic, authorization, service(s). Upload files to the SFTP folders for processing. Reply files are also placed in the SFTP folder for you to pick up.
5. NTE segment – Used for the Authorization number or the Other Funding Source and the County of Service. When the CPT code is not a crisis service you need an authorization number or to note the other funding source.
 - a. The current Other Funding Sources are: JAIL, WHAD (Whatcom Special Dollars), HARPS.

Next Meetings: June 26th @ 1pm
and Regularly Scheduled 2nd Friday on Friday, July 10th @ 1pm

HCA Email regarding the XE modifier

Thank you for all of the feedback you have provided on the proposed policy changes to the XE modifier. Based on feedback received, we will NOT implement the proposed draft policy described in the original email sent on May 11th (email provided below as reference).

As stated before, the XE modifier will be used to report the same procedure for the same provider for the same date of service when two or more services are rendered, as many times as indicated. However, instead of requiring all lines for this service be reported on one claim/encounter for one date of service, **effective 7/24/2020 ProviderOne will allow the XE modifier for the same procedure code for the same date of service to be reported on multiple claims/encounters. This will be allowed for only the four service codes listed below:**

Codes that will allow the XE modifier on multiple claims, effective 7/24/2020 are:

- H0023 (Outreach & Rehab Case Mgmt)
- H0030 (Crisis Hotline)
- H2011 (Crisis Service)
- H2015 (Community Support)

HCA hopes this addresses the concern expressed about requiring all lines of service under these circumstances be reported on one claim.

What about additional codes beyond the four codes identified?

HCA will continue to dialogue with MCOs and BH-ASOs about any additional service codes that occur multiple times a day. The XE modifier can be used for the 2nd occurrence, but will continue to reject as a duplicate for the additional lines on any code other than the four identified above. We will review how often this occurs and discuss possible options in the future.

Address Transaction in the format for July 1 implementation:

<u>Address</u>				
Field Description	Allow NULL	Data Type	Length	Notes
Transaction ID	N	Alphanumeric	6	022.03
Action Code	N	Alphanumeric	1	Code Table: Action Code
BH-ASO Report Unit	N	Alphanumeric	9	105020903
Agency Reporting Unit ID	N	Alphanumeric	10	ORG NPI
Unique Identifier	N	Alphanumeric	11	
Agency Client Number	N	Alphanumeric	11	
Effective Date	N	Alphanumeric	8	YYYYMMDD
Address Line 1	N	Alphanumeric	120	120
Address Line 2	Y	Alphanumeric	120	120
City	Y	Alphanumeric	50	50
County	Y	Alphanumeric	5	5
State	N	Alphanumeric	2	2
Zip Code	Y	Alphanumeric	10	10
Facility Flag	N	Alphanumeric	1	1
Source Tracking Id	Y	Alphanumeric	40	

Authorization Transaction in the format for July Implementation:

<u>Non-Medicaid Authorization</u>				
Field Description	Allow NULL	Data Type	Length	Notes
Transaction ID	N	Alphanumeric	6	980.00
Action Code	N	Alphanumeric	1	Code Table: Action Code
BH-ASO Report Unit	N	Alphanumeric	9	105020903
