

North Sound BH-ASO Technical call

2020-07-10

1. Future call for items will be done one week before the scheduled meeting the Agenda sent out in advance of the meetings.
2. As of July 1 the address record is a required transaction, for authorized clients, and the authorization is part of the EDI as the 980.00. If you have testing to be done please the file in the SFTP testing folder and notify us that it is ready.
3. October 2020. Our systems are ready to process test files. Upload them to the SFTP/testing folder and notify us.
4. Pipe delimited vs tab limited data. A time frame needs to be decided on when Pipe delimited is accepted and when the tab delimited starts. It may be that a window is open or that multiple upload folders are available for processing. IS will schedule a discussion within the next week to get an idea of how the change will happen.
5. MCR vs the ICRSVoluntary transaction. There are data elements that are common in both transactions. The ICRS Voluntary will end and the MCR will begin. Discussion have been on-going to be sure element meanings are the same and that the NS and the providers are interpreting the fields with the same meaning.

Extra meeting July 24th 1pm

Regularly scheduled meeting: Aug 14th 1pm
