#### Data Flow

There are two data paths for data submitted to the HCA for the Supplemental Data due for Submission in October. Crisis Data will go to the ASO. All Non-Crisis Medicaid client data will be submitted to Beacon and the Non-Crisis Non-Medicaid clients, funding by ASO dollars, will be submitted to the ASO. We recently had some questions about the format of the Beacon data and this led to this reminder that there will be at least two entities to send data to and the formats may differ. An example of a difference is that the ASO has chose to format their data with the TAB delimiter to match the HCA's format. Beacon has show that they will use a Pipe (|).

#### Questions/Testing updates for October Submissions

NSBH-ASO is ready for testing of the October Data requirements. Please place test files in the inbound/Test folder using the SFTP connection and send an email to [CIS@nsbhaso.org](mailto:CIS@nsbhaso.org) that the file is present. We will run your files and give you feedback
