

## North Sound Behavioral Health – Administrative Services Organization (North Sound BH-ASO) Technical Call

Scheduled 2020-09-11

### Agenda

1. Supplemental Data
  - a. Request for Service not a Service when considering when to send Supplemental Data
  - b. No Episode Creation means No Supplemental Data beyond Demographic, Auth request (when Assmt Only Auth).
  - c. Due within 30 days
2. Table Updates
  - a. MCR/DCR Referral Source have the same table. There was a duplicate field on the MCR that has been removed. There is one code on the table that needs updating and we'll update when that is done.
  - b. Update NonMCAuth ASAM score field to 7 characters in the field length or the table. The codes are the state codes and not the sequential numbers that had been in use with the interim Access DB use.
3. X in the LR
  - a. For the lesser restrictive fields between 'Participate....' And 'Refrain...' use X as the indicator and send nothing when there is no 'X'
4. Agency ID vs facility number in some transactions.
  - a. Not using the old org number – use NPI number for the Agency ID and for transactions that have the Provider NPI, such as that Profile, use the NPI for the facility. Some agencies may only have the one number and the fields will match.
