

North Sound Behavioral Health – Administrative Services Organization (North Sound BH-ASO) Technical Call

Scheduled 2021-04-09

Minutes

1. Supplemental Data
 - a. New Transaction 981.00 Auth Revision – can retract un-approved auth. When the transaction was built it to only be allowed on an authorization that had a clinical decision applied. The change means you can retract an authorization that a clinician has not yet review. At times there can be communication between the Provider and clinician and the end result is that the authorization request is not needed.
2. Table Updates
 - a. Facility NPI for detention placement. When a hospital is added to the list an email will be sent to the folks that use the DCR Investigation transaction rather than putting out a full Table Update to the website.
3. SERI Updates
 - a. Final SERI was released with the effective date of 2021-07-01
<https://www.hca.wa.gov/billers-providers-partners/behavioral-health-recovery/service-encounter-reporting-instructions-seri>
4. Data Dictionary Clarification
 - a. Lesser Restrictive – Assigned Agency. Next table will have the Organization NPI list.
5. Service Transactions
 - a. 837i Certification Number requirement in 2400 Loop – 837i companion guide was updated and the appropriate section is included below. The Cert number is currently a 5digit number starting with a 1. This number is obtained when a hospital calls the North Sound certification line and obtains the number for the non-medicaid ITA's.
 - b. Date for requirement – 2021-05-10.

LOOP 2400 SERVICE LINE NUMBER					R	
Service Line Number					R
