

North Sound Behavioral Health – Administrative Services Organization (North Sound BH-ASO) Technical Call

Scheduled 2021-10-11

Minutes

1. Supplemental Data

- a. Future -2021-12-02 The Mobile Response (MCR) transactions will be updated and on that processing date must include the new fields:
 - i. MCR – Servicing Provider, this is the individual providing the services to the client
 - ii. MCR – Agency ID/NPI of the facility where the MCR provider is based. At this time Agencies have only one NPI number making the NPI number the same as the Agency ID already in the transactions, but in the future should the Agency have multiple facilities with unique NPI numbers then this number would have a different NPI. Agency ID and Agency NPI will be the same value for providers, at this time.
 - iii. ASAM and Profile will have a new field of Source Tracking ID. Currently the Client Profile has “Source Tracking ID” as a data field that is required. This field will stay in place and be referred to as ‘Profile Record Key’ to match the State Definition. A new field of ‘Source Tracking ID’ will be added to the end of the transaction and is not a required field. You may send the same characters in Profile Record Key that you send in Source Tracking ID.
- b. Now
 - i. Service Episode
 1. End Reason required when Episode Ends and vice versa
 2. Date of First Contact – No NULL when there is an episode end date
 3. Medication-Assisted Opioid Therapy – No NULL
 4. First Offered Appt – No NULL
 - ii. DCR Outcome 1, 4, 7 requires Detention NPI
 - iii. Funding – Block Grant funding Required

2. Table Updates
